

## Palmer and Sicard Sheet Metal Fabrication

Palmer and Sicard is now fabricating ductwork for area companies and is looking to continue our growth by providing quality crafted sheet metal items for discerning business or that want options in where they buy ductwork. Our experienced team can form, draw, and assemble most common sheet fabrications and they excel in customized, hard to fit pieces. Our welding department can fabricate any sized unit stand, custom roof curb, duct or fittings often with very short notice. By keeping our production schedule fairly fluid, we are better able to address requests in a quick time frame and keep our customers productive.
